

## **Travertine-Light-Tumbled**

To produce Travertine Light Tumbled, light selection of Travertine tiles are Tumbled (just as in washing machines) together with pebbles to give an elegant and neat ageing on the tile surface. Tumbled finish gives an antique look and also allows a non slippery surface on this popular stone tile. Travertine is one of the best popular tiles for interior designers. Light Travertine looks tremendous when tumbled if you are looking for an antique and contemporary finish on wall and floor. Tumbled Light Travertine has been successfully used in period building conversions i.e from listed buildings, barns, watermill or granary mills into a house or renovations of Georgian, Victorian or Edwardian houses. Please give us a call to discuss your stone tile flooring and walling projects. We can suggest the best stone tiles to fit to your bathroom, kitchen, hall, living room, conservatory, garden or patio for modern building decorations or period building renovations. We can arrange delivery of your orders from our warehouse in Rainham Essex (next to London) to anywhere in England, Wales and Scotland as well as continental Europe.
