

## **Black-Nero-Marble---Blue-Stone-Tumbled**

Black / Nero Marble -also called as Blue Stone- is a very rare product. Quarried only in North Anatolian and Taurus Mountain range in Mediterranean region, it is ideal for both contemporary and period renovation projects. Tumbled finish gives an elegant antique look which is suitable for both indoor and outdoor flooring. Allows users a smoother and warmer feel compared to Nero Marquina marble. Black Marble has been very popular in period surface renovations of Edwardian, Victorian and Georgian Houses as well as in projects where a fine contrast between creamy and black shades are sought. This Blue Black Marble is also a fine alternative of a non slippery flooring for a kitchen with black granite worktops. Please check the availability of our stone tiles with our sales team for sale, clearance, discounted and cheaper tiles on special offers.

This rare Black Blue marble is also known for its natural healing qualities for centuries, it is believed to ease pains caused by Arthritis, Rheumatism, or Rheumatic disorder. Please give us a call to discuss your stone tile flooring and walling projects. We can suggest the best stone tiles to fit to your bathroom, kitchen, hall, living room, conservatory, garden or patio for modern building decorations or period building renovations. We can arrange delivery of your orders from our warehouse in Rainham Essex (next to London) to anywhere in England, Wales and Scotland as well as continental Europe.
