

Beige-Marble-Mosaics

Beige Marble Mosaics are gaining popularity along with increasing interest for marble flooring. Beige Marble Mosaic is cut from Aegean Beige marble and glued to a mesh or net made of dense plastic. Tumbled finish of the marble mosaic gives a classy slightly antique finish. It is used not only for walling and flooring but also as a stylish bordering for period and modern decorations. You can select from our square and brick pattern marble mosaics as per your preference. Please give us a call to discuss your stone tile flooring and walling projects. We can suggest the best stone tiles to fit to your bathroom, kitchen, hall, living room, conservatory, garden or patio for modern building decorations or period building renovations. We can arrange delivery of your orders from our warehouse in Rainham Essex (next to London) to anywhere in England, Wales and Scotland as well as continental Europe.
